

Aboriginal and Torres Strait Islander Youth Mental Health First Aid

About

This course teaches carers how to provide initial support to an Aboriginal and/or Torres Strait Islander young person (aged 12-18) who may be experiencing a mental health problem or mental health crisis, until professional support is received or the crisis resolves

A certificate of participation will be issued, or carers who successfully complete the course can choose to undertake the 3-year Accreditation process, that involves a short online multiple-choice activity. This will be discussed in more detail at the workshop.

This workshop is open to carers of Aboriginal and Torres Strait Islander Children.

This course will be limited to 14 carers so please RVSP asap.
